Euro Trip: Places to Visit

Organised by country and city, with time estimates. English names first; original name in parentheses where it differs. Prices as noted in the original list; always re-check hours and booking.

How the time is calculated: each place has an estimated visit time (travel inside the city, queues and a short break included), shown in grey. A city's hours are added up and divided by **8 sightseeing hours per day**, rounded up to the nearest half day. Travel *between* cities, sleeping and extra free time are not included. These are my own estimates, not official figures; adjust them to your pace.

GERMANY (Alemania)

Berlin (Berlín)

- Brandenburg Gate (Puerta de Brandenburgo) (~0.5 h)
